Work Experience

Lightrains Technolabs, Front-End Developer

Mar 2022 – Dec 2023 | Technopark, Trivandrum, India

- Worked in a multidisciplinary product team, demonstrating excellent communication skills and time management to successfully deliver projects.
- Single-handedly developed an NFT marketplace, Limoverse with 100,000+ unique visitors per month.
- Developed front-end for 20+ websites, using React.js, Next.js, TypeScript and TailWind.
- Created an AI story generation platform, StoryBee with 20,000+ unique visitors per month.
- Automated open graph image generation, using Next.js which improved SEO and social sharing experience.
- Converted legacy web apps into Next.js following the best core web vitals thus doubling the performance and UX.

GI Consulting LLC, Front-End Developer

Oct 2020 – Dec 2021 | Kochi, India

- Developed the volunteer platform, Leaders Of Change for Emirates Nature UAE used by 25,000+ volunteers.
- Converted UX wireframes and mockups into responsive, interactive features, using Vue.js and Bootstrap.
- Worked with agile team to manage contents using Drupal.
- Developed web apps with Arabic and English multilingual features.

Terasoft, Web Developer Intern

May 2020 – Sep 2020 | Thodupuzha, India

- Developed GUI for ERP systems using ASP .NET
- Translated design team's UX wireframes into responsive, interactive modules, using HTML/CSS and JavaScript.
- Created HTML email templates that improved email CTR rates by ~25%.
